RE: Performance Food Group, Inc. PILOT #20211206

Hello John,

We are writing to you to request an amendment to the previously received PILOT approval for our project on Global Drive in Memphis.

We plan to create twenty-five net new jobs during the two year ramp up period with at least thirty-six net new jobs over five years. The term sheet and subsequent PILOT approval were inadvertently written for thirty-six new jobs over two years and should read twenty-five net new jobs over two years.

All other facts in the term sheet appear to be correct and we are excited to grow and bring new jobs to Memphis and Shelby County. Thank you in advance for seeking amended approval for the PILOT for our project. We are so appreciative of the support we have received from EDGE and the state and look forward to our continued community partnerships.

Kind Regards,

A handwritten signature in cursive script that reads "Tami Gardner".
